

Dear Judeo-Christian Leader,

April 19, 2009

Welcome to the Third Monday Evening Tele-Training, hosted by Public Awareness Ministries 501c3; our website is PreserveLiberty.com. Tonight's teaching outline, ***The Basics of Voter Registration*** is here on pages 2-14.

While Tea Parties and Town Halls are vitally important, these excellent efforts alone cannot reclaim America.

To restore America to her Biblical and Constitutional roots, we must *each* become consistently informed, prayerful, and active at the local level (including voter registration, precinct work, and more).

Restoring America's Biblical and Constitutional foundation is not difficult; it just takes prayer and focused work. If only 10% of Christians (i.e., the estimated percentage who have a Biblical worldview) would do the following two simple things, we'd go a long way to restoring America's Biblical foundation and the liberty it gives us:

1. **Be involved in united prayer for our leaders and nation just one hour a month in your city**; it takes 2-3 minutes at the "Prayed-Up" link at PreserveLiberty.com to sign up a new prayer group, and we will build you a free webpage (and provide monthly updated one-page prayer guides).
2. **Invest two mornings every monthly to register voters, walk precincts, help qualify a ballot initiative** (i.e., be *directly involved locally* in impacting your city, state, and nation with Biblical principles).

To see a 3-minute video about a simple prayer-based, city-by-city plan to preserve America's Biblical and Constitutional foundation (and liberty for posterity), please visit PreserveLiberty.com. **Daniel Webster said** that, "God grants liberty **only** to those who love and are willing to defend it."

Share the vision of thousands of local groups across America, each of which has several churches or organizations tied-in, that consistently pray and work together to advance Biblical values and God-honoring leaders. **Will you join us** in this holy cause? Will you consider encouraging others to join us? **Thank you** for your prayers and consideration.

--Helping build a standing army that's "prayed-up" and "trained-up" to protect life, marriage, and America's Biblical foundation,

A handwritten signature in black ink, appearing to be 'Mark Matta', with a long horizontal line extending to the right.

The Basics of Voter Registration

(Info below excerpted from the CA Secretary of State -- <http://www.sos.ca.gov/elections/>)

Voter Registration Card (VRC) – State VRC vs. County VRC State VRC

The state VRC is pre-printed with a mailing address to the Secretary of State's office in Sacramento. These cards come to the Secretary of State's office, are sorted by hand and then forwarded to the appropriate county elections office where the voter is actually placed on the voter rolls. The state VRC is printed in English, as well as in Spanish, Chinese, Japanese, Korean, Tagalog and Vietnamese, as required by the federal Voting Rights Act (VRA).

The benefit of using the state VRC is it can be used in any of 58 counties. However, it will take a person longer to be registered to vote, given that the cards are mailed to one central location, and then mailed out to the appropriate county where the person is registering to vote.

County VRC

The county VRC is identical to the state VRC except the pre-printed mailing address on the front is that of a specific county elections office, so these VRCs can be mailed directly back to the specific county elections office. Counties are only required to provide election materials in certain languages other than English when the number of residents that speak a minority-language exceeds a certain percentage of the population. Therefore, most counties do not print county VRCs in all seven approved languages. The benefit of using the county VRC is the person will become a registered voter much quicker, since the card is mailed directly to their home county elections office.

Which Card to Use

If you are planning a statewide voter registration drive, you should use the state VRC, especially if you plan to register voters at an event or activity that will attract people from different counties. If you are conducting your drive exclusively in one county, you should use that county's VRC. This will ensure county elections officials will receive the VRC more quickly. Even if you are conducting a regional voter registration drive involving several counties, you may wish to use VRCs that are specific to each county.

Where To Obtain VRCs

VRCs must be provided in sufficient quantities to anyone who wishes to distribute the cards. (Election Code § 2158.) However, elections officials are precluded by law from giving cards to anyone who has been convicted of violating voter registration laws within the last five years. To obtain county VRCs, contact the appropriate county elections office. For a list of county elections offices, please refer to the Secretary of State's website at www.sos.ca.gov/elections/elections_d.htm.

To obtain state VRCs, contact the Secretary of State's Elections Division at 916-657-2166. Anyone requesting more than 50 VRCs from a county elections official or the Secretary of State's office must complete a distribution form, which includes a plan of distribution, in order to obtain the registration cards. A Voter Registration Card Statement of Distribution form is available on the Secretary of State's website at www.sos.ca.gov/elections/vrdis.pdf. In order to receive state VRCs, the completed statement and plan of distribution can be faxed to the Secretary of State's office at 916-653-3214 or mailed to:

Secretary of State
Elections Division
1500 11th Street, 5th Floor
Sacramento, CA 95814

Upon receiving a completed request by fax or mail, the Secretary of State will process the request within 48 hours. If you will be conducting a mass mailing of VRCs without targeting unregistered, eligible citizens and without the intended recipients having asked for the cards, the Secretary of State will help you design a distribution plan to ensure cards are not unnecessarily wasted.

Can a VRC from One County be Used to Register a Resident of Another County?

Yes. If a resident of one county uses another county's VRC to register, the county that receives the card will forward it to the proper county elections office. (Elections Code § 2114.) However, it is best to use the county-specific cards whenever possible to avoid delays in getting the citizen registered to vote.

Deadline for Voter Registration

Even though citizens can register to vote at any time, if they want to vote in an upcoming election, **they must register no later than 15 days before that election.** A completed VRC must be **postmarked** or delivered in person to the county elections office no later than 15 days before an election. (Elections Code §§ 2102, 2107.)

Who Can Register to Vote in California?

In order to register to vote, a person must:

- ✓ Be a **citizen** of the United States
- ✓ Be a **resident** of California
- ✓ Be at least **18 years of age** at the time of the next election
- ✓ **Not be in prison or on parole** for the conviction of a felony
- ✓ **Not have been deemed** by a court to be **mentally incompetent.**

Citizenship

The most basic requirement for registering to vote is United States **citizenship.** The 14th Amendment to the United States Constitution states, "All persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside." A person is not a citizen simply because they live in California or are married to a U.S. citizen.

While federal law requires the voter to check a box on the registration card to indicate that they are a U.S. citizen, Elections Code section 2111 says that a person who signs a registration card under penalty of perjury is **assumed, in the absence of contrary information, to be a citizen.** Elections Code section 2112 additionally states that a registration card is proof of citizenship for voting purposes only; it cannot be used to prove citizenship for any other purpose.

Residency

A voter's residence, for purposes of voter registration, is the address specified by the voter. A voter may have more than one residence, but **may only register to vote at the residence the voter considers to be their domicile.** For example, a voter may have homes in Red Bluff and San Diego, spending a portion of their time in each. In this case, the voter should register at the address they consider to be their principal residence, at which they have the intention of remaining, and to which they, when away, intend to return.

A person's residence status depends on their action and intent. If a person moves to another state or another country but intends to return, they may still claim residency in California. However, they cannot register in another state and also continue to vote in California.

If a person is in the service of the United States or the State of California, that person may retain residency in California for voting purposes if stationed elsewhere. (Elections Code § 2025.) A student who is going to school away from home may register to vote either at the address where they live when going to school or at the address where they live when they are not going to school. If a student is re-registering to vote at a school address, they should fill out the prior registration portion of the card to cancel their previous registration.

Courts have ruled that a homeless person may register to vote at a location they state is the place where they spend most of their time. The person must provide a description of the location that is clear enough for the elections official to establish that person's right to vote in a particular precinct. This ensures accurate elections materials can be provided to this voter. In these instances, a mailing address needs to be provided in order for the voter to receive election materials.

Age

Citizens who will be **at least 18 years of age** at the time of the next election may register and vote.

In prison or on parole for the conviction of a felony

A person who is convicted of a felony loses the right to register and vote while they are in prison or on parole. Once their prison term and parole period (if they have one) is completed, the person's ability to vote (if they were previously registered) or to register and vote is restored. For more information on the rights of people who have been incarcerated, please see the Secretary of State's Voting Guide for Inmates at www.sos.ca.gov/elections/sharing-ideas/a-votingguide-for-inmates.pdf.

Mental incompetence

A person found by a court to be **mentally incompetent** may not register to vote. The registration of any voter found by a court to be mentally incompetent for voting purposes must be canceled by the county elections official. (Elections Code §§ 2208, 2209, 2210, 2211.)

Who Can Register Citizens to Vote?

You do not need to be a registered voter, be a particular age or even be a resident of the area in order to register voters. However, if you help someone fill out the registration card, you do have to fill in and sign the card in the spaces provided for that purpose.

Partisan Political Activity While Registering Voters

Any person may, while registering voters, conduct partisan political activity. The law does not restrict your free speech rights when conducting a voter registration drive. Common courtesy and common sense, however, should be practiced.

Give a VRC to Anyone Who Requests One

Even if you are conducting a partisan voter registration drive, California law requires you to give a blank VRC to anyone who asks for one and to turn in any completed voter registration card, regardless of the person's party affiliation. (Elections Code §2158; California Code of Regulations, title 2, § 20001(g)(1).) Failure to do so is punishable by a fine. (Elections Code § 18107.)

A Citizen Need Not Be Able to Speak and/or Write English in Order to Register to Vote

There is no literacy requirement for participation in the elections process. If a citizen cannot read or write in any language, they may be assisted in completing a VRC.

Whenever a person, who is being paid to register citizens, provides assistance to a citizen registering to vote, the person assisting must also sign and date the completed registration card and provide their full name, telephone number, and address, and the name and telephone number of the person, company or organization, if any, that agrees to pay money or other valuable consideration for the completed VRC. (Elections Code §§ 2150, 2159.) Failure to do so is a misdemeanor and is punishable by a fine, imprisonment or both. (Elections Code § 18108.)

You Cannot Charge a Citizen a Fee to Register to Vote

The 24th Amendment to the U.S. Constitution prohibits the use of any poll or other tax as a way to deny people the right to vote. Additionally, Elections Code section 2121 states, "No fees may be charged for registration." A person may, however, solicit campaign contributions while registering voters, as long as that is not a condition for allowing an eligible citizen to register to vote.

Change of Address, Voter's Name, or Political Party

Voters need to re-register to vote whenever they move to a new address, change their name or change their political party affiliation. When completing a new VRC, they must provide both their new and previous registration information. (Elections Code §§ 2115, 2152.)

The Circulator May Not Fill in the Blanks on VRCs

The circulator may not fill in the blanks on the VRC unless the citizen registering to vote asks for that help. If asked for assistance, the circulator must complete the VRC in its entirety and exactly as the citizen requests. The circulator assisting in filling out the card must also provide all required

information on the VRC (sign and date the card, provide their full name, telephone number, address, and the name and telephone number of the person, company or organization, if any, that agrees to pay money or other valuable consideration for the completed VRC). **Cards with any pre-filled “blanks” may not be used. (Elections Code §§ 2159, 2162.)**

VRC is Signed Under Penalty of Perjury

To be valid, a VRC must include the signature of the voter indicating they certify under penalty of perjury that the information on the card is accurate. Perjury is punishable by imprisonment in state prison of up to four years. (Penal Code §§118, 126.)

Information on VRCs is Confidential

Personal information provided on VRCs is confidential, but is required by law to be released to people who intend to use that information for election, scholarly, journalistic, or political purposes, or for governmental purposes, as determined by the Secretary of State. However, the driver's license, identification card or social security number and the voter's signature will not be released, even for the uses listed above. (Elections Code § 2194.)

The voter registration file may be purchased from the county or from the Secretary of State for the above-listed purposes only. **The voter registration file may not be used for commercial purposes.** (Elections Code § 2194.)

A person wishing to order a copy of the voter registration file must complete an application that requires them to provide their driver's license or state identification card number. The person applying must also show their identification to the elections office to verify their identity.

If a person or an organization in charge of the voter registration drive discloses a driver's license number, identification card number and/or social security number from a VRC to someone other than an elections official or the person or organization in charge of the voter registration drive, that person is guilty of an infraction. The infraction is punishable by a fine of up to five hundred dollars (\$500). (Elections Code §§ 2138.5, 18111.)

Duplicated VRCs Cannot Be Used

Only official state or county-issued VRCs may be used. If your voter registration drive runs out of cards, you may obtain more from the county elections office or from the Secretary of State's office.

You may not print VRCs in the newspaper, in newsletters, or elsewhere. You may print and publish a *request* for a VRC which, when filled out and returned by the citizen, would trigger an official voter registration card to be mailed to that citizen for them to complete and return.

Returning the Completed VRCs

Completed VRCs may be returned either in person to the county elections official or by depositing them in the mail. If a person accepts a completed card from a voter, that card must be returned in person, to the county elections official or Secretary of State, or deposited in the mail **within three days** of receiving it (excluding Saturdays, Sundays and state holidays) or before the close of registration, whichever is earlier. (Elections Code § 2138.) Failure to submit completed VRCs within this time frame is a misdemeanor. (Elections Code § 18103.)

The circulator must allow a voter to return their own completed card; the circulator cannot interfere with the prompt transfer of a completed card from a voter to the elections office. (Elections Code § 2138.) Refusal to return a completed card to the voter or interference with the prompt transfer of a completed card is a misdemeanor punishable by a fine. (Elections Code § 18103.)

Offering Incentives for Registering Voters

Federal law makes it unlawful in an election in which there is a federal contest on the ballot (e.g., President, U.S. Senate, U.S. Representative) to knowingly and willfully pay, offer to pay, or accept payment for registering to vote or for voting. (42 U.S.C. § 1973i(c).) Violations are punishable by imprisonment for up to five years. Any type of incentive is considered “payment,” even things as seemingly innocent as cookies or admission to an entertainment event.

Filling Out a VRC

There Are Two Portions to Each Card:

The registration portion. This section is used to register the voter, is detachable, and can be mailed to the elections official without the need for postage.

The voter's receipt. A number is printed on the receipt, which corresponds to the number under the signature block on the registration portion of the card. Anyone helping a person register to vote and returning the completed affidavit to the elections office on behalf of the newly registered voter must fill out the information required on the receipt and give it to the person who is registering to vote. (Elections Code § 2158.)

Use Ink

The card should be filled out with black, blue, or other dark ink colored pen.

Print Legibly

All of the information on the card must be legible. If an elections official cannot read the information on the card, they may not be able to enter the voter's name into voter registration file and assign them to the proper precinct and district.

Complete the Entire VRC

Make sure the person registering to vote fills out the VRC completely. Any omission of required information may delay or invalidate the registration.

Most common omissions and/or mistakes:

- ✓ **County:** People are accustomed to writing their city and state, but not identifying the county in which they live when writing their address. Information about a person's county is requested in two places on the card: the residence address portion (Item 5) and the prior registration portion (Item 16).
- ✓ **Birthplace:** Many people list a city rather than the state or foreign country where they were born (Item 10).
- ✓ **Missing Identification Information:** Failure to provide the required driver's license number, state identification card number, or the last four digits of the social security number may cause delays. A person should fill in the proper identification number if they have one (Item 11).
- ✓ **Citizenship and Age:** There are "Yes" and "No" check boxes, above the voter's declaration and signature box, where the person must check both their citizenship and age eligibility declarations (Item 17).
- ✓ **Prior Registration:** This section must be completed if the voter has been registered before, whether in California or in another state (Item 16).
- ✓ **Signature:** Local elections officials cannot accept unsigned voter registration cards (Item 18).
- ✓ **Date:** The person must put the date the voter registration card was completed and signed (Item 18).

What Happens if the VRC is not Filled Out Completely?

If the VRC does not have all the required information, but the voter provided their telephone number, the elections official will call the person to collect the missing information. If the telephone number is not provided or cannot be read, the elections office will try to contact the person at their address to get the missing information. (Elections Code § 2153.)

If neither the telephone number nor the address is provided or readable, the VRC will be rejected and the person will not be registered to vote.

Completing Each Section of the Card

Elections Code section 2150(a) specifies what information must be provided on a registration card.

- ✓ Name
- ✓ Address (street address, and mailing address if different)
- ✓ Date of birth
- ✓ Place of birth
- ✓ Driver's License OR I.D. card OR partial Social Security Number (last four digits)
- ✓ Email or Phone number (optional)
- ✓ Political party

Items 1, 2 and 3: Name

The printed first name, middle name (or initial), and last name of the person registering to vote must be provided. The title Mr., Mrs., Miss, or Ms. is optional. Using a spouse's name (e.g., Mrs. John Jones) is not allowed.

Items 4 and 5: Address

The address where the person lives or considers their residence must be printed. The address cannot be a post office box, a business address or a commercial mail receiving business. A person might have more than one residence address, but can be registered to vote at only one.

Be certain the person includes all of the information requested, including the apartment unit, or space number (if any), the California county (**not country**), and the zip code.

Item 6: No Street Address

A person does not need to have an address that includes a house number and street name in order to register to vote. However, the person must provide a description of the location that is clear enough for the elections official to establish that person's right to vote in a particular precinct so the proper election materials can be provided to them. In this case, the person should indicate a description of the location of their residence, using cross streets, landmarks, or other information to pinpoint as precisely as possible where the person lives.

Items 7 and 8: Mailing Address

If a person receives mail at a different location than where they live, that address for mailing should be provided.

Item 9: Date of Birth

Any citizen wishing to register to vote must be at least 18 years old by the date of the next election in order to vote in that election.

Item 10: Place of Birth

The person should indicate the name of the state in the United States, United States territory or the name of the foreign country where they were born.

Item 11: California Driver's License or Identification Card Number or, if None, Partial Social Security Number

A person **must provide a driver's license or state identification card number** where it is requested on the card. **If a person does not have a driver's license or state identification card number, the person must provide the last four digits of their social security number.**

If county elections officials verify that the person does not have any of the above numbers, a unique identification number will be assigned to the person. County elections officials must verify all identification numbers provided for a person, as well as the absence of a driver's license or state identification number for those who do not provide one.

Additionally, if the last four digits of a social security number are provided, the county elections officials must confirm those with the Social Security Administration. Conflicting information can delay

processing of the application, such as when the Department of Motor Vehicles (DMV) indicates a different driver's license number for the person in question, or DMV indicates a driver's license for a person when the person has not provided one.

Items 12 and 13: Email Address and Telephone Number (Optional)

If a VRC has not been filled out completely, providing a telephone number and/or an email address may allow a person to be properly and timely registered to vote. California law requires county elections officials to attempt to contact a person to collect required information that was not included on the VRC. However, as stated on the VRC, providing a telephone number and/or an email address is optional for the voter.

Item 14: Political Party

There are six qualified political parties in California that a voter can register with:

- ✓ American Independent Party
- ✓ Democratic Party
- ✓ Green Party
- ✓ Libertarian Party
- ✓ Peace and Freedom Party
- ✓ Republican Party

Registering with a political party ensures a person can vote for that party's candidates in a primary election in which each party selects its nominees. A person registering to vote may also choose to indicate membership in an alternate political party that is not currently a "qualified party" in California.

Information regarding the qualified and non-qualified parties may be obtained by calling or writing the chairperson for each party. For party contact information, please refer to the Secretary of State's website at www.sos.ca.gov/elections/elections_parties.htm.

A person may choose not to affiliate with any political party by marking the "No, I don't want to register with a political party" box within Item 14 on the card. When a person marks this box, the person will become a "Decline-to-State voter" and will receive nonpartisan primary election ballots.

Decline-to-State voters may be able to take part in partisan *primary* elections if authorized by a political party's rules. For a current listing of participating political parties, please refer to the Secretary of State's website at www.sos.ca.gov/elections/elections_decline.htm or call (800) 345-VOTE (8683).

However, if a Decline-to-State voter does not request such a ballot from their county elections official, the voter will be given a nonpartisan ballot, containing only the names of candidates for nonpartisan offices and measures to be voted upon at the *primary* election.

During a *general* election, Decline-to-State voters may vote for any candidate on the ballot, regardless of the party of the candidate or the party affiliation of the voters. If a voter does not make any selection or if they select a non-qualified political party to register with, they will officially be registered as a Decline-to-State voter.

Item 15: Permanent Vote-By-Mail Voter

This provides a person the opportunity to become a permanent vote-by-mail voter and automatically receive a vote-by-mail ballot for each election.

Item 16: Previous Registration

Often when a person moves, they will re-register to vote at the new address without canceling their old registration. Filling out this portion of the card will automatically trigger the cancellation of an out-of-date and/or incorrect voter registration. If a person has been registered to vote several times previously, the most recent registration information should be given.

If a person changes their name, they should indicate the new name in Items 1 and 2 and the former name in Item 16. A person may also use this part of the VRC to affiliate with a different political party.

To do so, the person should indicate in Item 14 with which political party, if any, they now wish to be affiliated, and indicate their prior party affiliation in Item 16. The failure to complete this section may preclude a person from being able to register to vote.

Items 17 and 18: Citizenship, Age, Declaration/Signature and Date

All registration cards must be signed by the person wishing to register to vote. When a person signs a VRC, they are certifying, under penalty of perjury, that they are a citizen of the United States, will be at least 18 years of age by the day of the next election, are not in prison or on parole for the conviction of a felony, and that the information provided on the VRC is true and correct. Each person should read and understand the statement and warning on the card before signing it. A person who is unable to write their name can sign the registration card with a mark or cross.

Each person registering to vote must date the card in the space immediately after the signature. The date of execution is important, especially during periods close to registration deadlines, in the event a postmark cannot be read or does not exist.

“Optional” Information Box

Counties use the Optional A, B, and C boxes to collect information about a voter’s need for election materials printed in a language other than English, the availability to serve as a poll worker, the ability to provide a polling place, and the voter’s ethnic background.

“Did Someone Help You Fill Out or Deliver This Form?” (Green Box)

If any person helps a citizen complete a registration card, that person **must** sign and date the card below the signature of the person registering. (Elections Code §§ 2150, 2159.)

Additionally, any person who is paid to return the completed registration card must write directly on the registration card: their full name, telephone number and address, and the name and telephone number of the person or organization, if any, that is paying money or other valuable consideration for the completed registration card. (Elections Code § 2159.)

Serial Number (below Item 18)

A unique serial number is printed on every VRC. This same number is also printed on the VRC receipt.

Voter’s Receipt (bottom of card)

There is a receipt stub at the bottom of the card that also has the serial number on it. **If a circulator takes a completed registration card to return it to the elections office, the circulator must sign and date the receipt** and provide their full name, telephone number, address, and the name and telephone number of the person, company or organization, if any, that agrees to pay money or other valuable consideration for the completed VRC; this completed receipt must be given to the person. (Elections Code §§ 2150, 2159, 18108.) If there is a problem with the person’s registration as a voter, the person can use the receipt as proof that they have completed a card and intended to register to vote.

Locations to Consider -- Doing Voter Registration

1. **Church** (must be done in non-partisan manner)
2. **Grocery store**
3. **College campus**
4. **Following new citizens’ swearing-in ceremonies**
5. **Rallies / special events**
6. **Any places large groups gather**

(Always have the non-partisan “Party Platform Summary Sheet” one-page summary with you to show people where the Republican, Democrat, and Green Parties stand on many major issues. The “Party Platform Summary Sheet” is available on the “Printable Tools” links at PreserveLiberty.com.

A Short Discussion of “Bounty” for Voter Registrations

Penalties for Failing to Comply with Voter Registration Requirements

Penalties for the Voter

There are many rights and responsibilities associated with registering to vote. A misuse of those rights and responsibilities can result in criminal fines and penalties.

Perjury

A VRC is signed under penalty of perjury. Penal Code section 118(a) defines perjury, in pertinent part, as follows: Every person who, having taken an oath that he or she will testify, declare, depose, or certify truly before any competent tribunal, officer, or person, in any of the cases in which the oath may by law of the State of California be administered, willfully and contrary to the oath, states as true any material matter which he or she knows to be false, and every person who testifies, declares, deposes, or certifies under penalty of perjury in any of the cases in which the testimony, declarations, depositions, or certification is permitted by law of the State of California under penalty of perjury and willfully states as true any material matter which he or she knows to be false, is guilty of perjury.

False statements on a VRC about a voter's name and place of birth are deemed willful and constitute perjury. (*People vs. Darcy* (1943) 59 Cal.App.2d 342, 348-349.) Perjury is punishable by imprisonment in state prison for up to four years. (Penal Code § 126.)

Registration of a Person Not Entitled to Register

Any person who allows themselves or any other person to be registered as a voter, knowing that they or any other person is not entitled to registration may be imprisoned in state prison for up to three years, or in county jail for up to one year. (Elections Code § 18100.)

Fraudulent Voting

Any person who is not entitled to vote at any election (including people who are illegally registered) who votes or attempts to vote, or who tries to vote more than once, may be imprisoned in state prison for up to three years, or in county jail for up to one year. (Elections Code § 18560.)

Imposition of a Fine in Addition to Imprisonment

Upon a conviction for any crime punishable by imprisonment in any jail or prison, when a fine is not set forth, the court may impose a fine on the offender not exceeding one thousand dollars (\$1,000) in cases of misdemeanors or ten thousand dollars (\$10,000) in cases of felonies. This is in addition to the imprisonment prescribed. (Elections Code §18001.)

Penalties for the Person Registering Voters

There are also penalties associated with violating laws pertaining to the registration of voters.

Registration of a Person Not Entitled to Vote

Anyone who knowingly registers to vote people who are not citizens, are not of voting age, are in prison or on parole for the conviction of a felony, or in any other way are not entitled to register, is guilty of a crime. This crime is punishable by imprisonment in state prison for up to three years, or in county jail for up to one year. (Elections Code § 18100.)

Registration of a Nonexistent Person

Anyone who tries to register a nonexistent person (the definition includes deceased persons, animals, and inanimate objects) to vote is guilty of a crime. This crime is punishable by imprisonment in state prison for up to three years, or in county jail for up to one year. (Elections Code § 18100.)

Registration of a Person without Their Consent or Registration of a Fictitious Person

Anyone who tries to register or re-register a fictitious person or any person, who has not requested registration or re-registration as a voter, is guilty of a crime. This crime is punishable by imprisonment in state prison for up to three years, or in county jail for up to one year. (Elections Code § 18101.)

Interference with Transfer of VRC to County Elections Official

Any person who registers a voter and is entrusted by that voter with the responsibility of returning that voter's registration card to the appropriate elections official must return the card within 3 days, not including Saturdays, Sundays, and state holidays, of receipt from the voter or before the close of registration, whichever is earlier. A voter is also free to return their own VRC to the county elections official, even when they received the card from a person involved with a registration drive.

Anyone who interferes with the prompt transfer of a completed registration card to the county elections official; retains a completed registration card for more than three business days or after the close of registration; or denies a voter the right to return to the county elections official the voter's own completed registration card, is guilty of a **misdemeanor** and is punishable by a fine of up to one thousand dollars (\$1,000). (Elections Code § 18103.)

Alteration of Party Affiliation

Anyone who **tampers with a voter's designation of political party** contained in a VRC is guilty of a crime. **The punishment is imprisonment in state prison for up to three years**, or in county jail for up to one year. (Elections Code § 18106.)

Mailing VRCs

Anyone who mails a VRC to a person who does not request one must include a cover letter or other notice instructing the recipient to disregard the card if the person is already registered. Failure to include a cover letter or other notice will subject the mailer to a fine of up to two hundred dollars (\$200). (Elections Code §§2158, 18107.)

Failure To Provide a Voter Registration Receipt

Anyone who helps a citizen register to vote and fails to complete and provide to that citizen the receipt portion of the voter registration card is subject to a fine of up to two hundred dollars (\$200). (Elections Code §§ 2158, 18107.)

Failure to Complete the Green Box ("Did Someone Help You Fill Out or Deliver This Form?") on the VRC

Any person who, in exchange for money or other valuable consideration, helps a citizen register to vote by receiving the completed VRC from the citizen, must sign and date the VRC and provide their full name, telephone number, address, and the name and telephone number of the person, company or organization, if any, that agrees to pay money or other valuable consideration for the completed VRC.

Anyone who fails to complete the green box is guilty of a misdemeanor. (Elections Code §§ 2150, 2159, 18108.) See Chapter I, Paying People to Help Citizens Register to Vote, page 2 and Election Code section 2159.5 for the duties of the drive organizers and Elections Code section 18108.5 for penalties associated with any breach of the duties of the drive organizers.

Failure To Give a VRC to a Person Requesting One

Anyone who distributes VRCs must provide a VRC to anyone requesting one. (Elections Code § 2158.) Anyone who violates this law is guilty of an infraction punishable by a fine of up to two hundred dollars (\$200). (Elections Code § 18107.)

Any person requesting 50 or more registration cards must sign a statement, under penalty of perjury, that reasonable steps will be taken to ensure that people distributing such cards to potential registrants will give a VRC to any person requesting one for the purpose of registering to vote. (California Code of Regulations, title 2, § 20001(g)(1).)

Voter Registration Lotteries, Prizes, Contests

Privately sponsored contests to promote voter registration are outlawed under 42 U.S.C. 1973i(c), which is part of the Federal Voting Rights Act. You may not offer food, prizes, discounts, or any other form of compensation to encourage voter registration or to encourage people to vote in elections in which there is a candidate for federal office on the ballot (e.g., President, U.S. Senate, U.S. Representative).

Subornation of Perjury

Every person who has another person commit perjury is guilty of subornation of perjury, and is punishable in the same manner as they would be if personally guilty of the perjury. (Penal Code § 127.)

If an individual knowingly helps an ineligible person register to vote, they are also punishable for perjury and could be charged with this crime. (Penal Code § 126.)

Printed Statements on VRC

It is a crime for a person, other than the voter, to write on a VRC any statement supporting or opposing any candidate or measure. Any person, other than the voter, who writes such a statement is guilty of a misdemeanor. (Elections Code §18105.)

Misrepresenting Information on Circulator Section of VRC

Anyone who misrepresents themselves as having registered another person to vote is guilty of a misdemeanor. This crime is punishable by a fine of up to one thousand dollars (\$1,000), by imprisonment in county jail for up to six months or by both the fine and imprisonment. However, upon a third or subsequent conviction of this crime, a person shall be punished by a fine of up to ten thousand dollars (\$10,000), by imprisonment in county jail for up to one year or by both the fine and imprisonment. (Elections Code §§ 2159, 18108.1.)

Disclosing Driver's License Number, Identification Card Number or Social Security Card Number

If a person or an organization in charge of the voter registration drive discloses a driver's license number, identification card number and/or social security number from a voter registration card to someone other than an elections official or the person or organization in charge of the voter registration drive, that person is guilty of an infraction. The infraction is punishable by a fine for up to five hundred dollars (\$500). (Elections Code §§ 2138.5, 18111.)

Imposition of a Fine in Addition to Imprisonment

Upon a conviction for any crime punishable by imprisonment in any jail or prison, when a fine is not set forth, the court may impose a fine on the offender for up to one thousand dollars (\$1,000) in cases of misdemeanors or ten thousand dollars (\$10,000) in cases of felonies. This is in addition to the imprisonment prescribed. (Elections Code §18001.)

Planning A Voter Registration Drive

Contact Your Local Elections Office

Planning is the first step of a successful voter registration drive. Your county elections office can provide you with the materials you need to get started, as well as offer advice about how to conduct a successful registration drive. For a list of county elections offices, please refer to the Secretary of State's website at www.sos.ca.gov/elections/elections_d.htm.

Develop a Plan

After consulting with your county elections office and getting the appropriate materials, you may wish to gather important data. While it is possible to distribute voter registration cards at any location, you may wish to develop a plan to reach the largest number of unregistered citizens in your area.

Two questions you may wish to ask to help you develop a plan include:

- ✓ How many people in the area where you want to conduct your voter registration drive are already registered to vote?
- ✓ How many of those who are not registered to vote will be 18 by the time of the next election, are U.S. citizens, and are residents of California?

Information to help you answer these questions is available from various census publications and from the United States Census Bureau's website at www.census.gov. Congressional district information can be found in the Congressional District Atlas (www.census.gov/geo/www/cd108th/atlascd108.html), while county and city information can be obtained in the General Population Characteristics publication (www.census.gov/prod/cen1990/cp1/cp-1.html). These publications also may be available at your local library.

Answering these questions will help you define the scope of your voter registration drive, as well as identify the resources you will need to meet your goals. It may also make the way you approach your efforts more effective and your drive more successful.

Distribution Form

Any person, group or organization requesting more than 50 voter registration cards from a county elections official or the Secretary of State's office must complete a distribution form and state the distribution plan on the form. The distribution plan should describe how the drive will be organized, what groups will be targeted, what methods will be used to distribute cards, and an acknowledgement that organizers know and will follow the laws and rules relating to voter registration. (California Code of Regulations, title 2, § 20001(g).)

A "Voter Registration Card Statement of Distribution" form is available on the Secretary of State's website at www.sos.ca.gov/elections/vrdis.pdf.

Paying People to Register Citizens to Vote

Elections Code section 2159.5 states that any person, company, or organization that is paying people to help register citizens to vote must:

- ✓ Maintain a list of the names, addresses, and telephone numbers of everyone that the person, company, or organization has agreed to pay for helping register citizens to vote.
- ✓ Provide each person who is being compensated for helping register citizens to vote with a written statement of that person's personal responsibilities and liabilities under Elections Code sections 2138, 2139, 2150, 2158, 2159, 18100, 18101, 18103, 18106, 18108, 18108.1, and 18108.5; and maintain for at least three years, a written acknowledgment that the person received the written statement.
- ✓ Only compensate people who comply with the requirements of Elections Code section 2159, which states in pertinent part that "any person who, in exchange for money or other valuable consideration, assists another to register to vote by receiving the completed affidavit of registration¹ from the elector, shall sign in his or her handwriting and affix directly on the affidavit of registration his or her full name, telephone number, and address, and the name and telephone number of the person, company, or organization, if any, that agrees to pay money or other valuable consideration for the completed affidavit of registration."

- ✓ Submit all cards collected to the elections official, even if some cards do not contain all of the information required by Elections Code sections 2150 and 2159. When submitting the completed cards, place the cards that contain all of the required information into a group and attach a signed acknowledgement that the cards in the group are in compliance with Elections Code sections 2150 and 2159. If there are cards that do not contain all of the required information, place them into a group and
- ✓ attach a signed acknowledgement that the cards in the group are not in compliance with Elections Code sections 2150 and 2159. Failure to comply with any of these requirements is a misdemeanor punishable by a fine of up to one thousand dollars (\$1,000) or by up to one year in jail. The fine and imprisonment time increase upon a third or subsequent conviction. (Elections Code §18108.5.)

As a registration drive organizer, you should be mindful of the potential for voter registration fraud. A list of possible voter registration fraud indicators can be found in Appendix C. Please contact the Secretary of State's Elections Division at (916) 657-2166 for more information. (The Elections Codes refers to voter registration cards as affidavits of registrations. For purposes of this guide the terms are synonymous.)

Training Your Team

Training Is Important!

It is critical that everyone working or volunteering for you understands the procedures and laws relating to voter registration. Before being sent out to register people to vote, be certain that each person knows the eligibility requirements for registration and how important it is for registrants to correctly complete the voter registration card.

If your workers or volunteers give out incorrect information, they and you, as the drive organizer, may inadvertently deny a qualified citizen the ability to register to vote or register a person who is not qualified to register to vote. There are criminal penalties for intentionally denying qualified citizens the opportunity to register to vote or for registering someone to vote who is not eligible to register to vote. Please have your workers or volunteers review this Guide, especially the section "Who Can Register to Vote in California?" as well as the Secretary of State's website at www.sos.ca.gov/elections_vr.htm.

Contact Your Local Elections Official

Be sure to contact your local elections official about training everyone involved in your registration drive. Many local elections officials conduct voter registration training programs and have printed material or other resources that might be useful in training your workers and volunteers. For a list of county elections offices, please refer to the Secretary of State's website at www.sos.ca.gov/elections/elections_d.htm.

Basic Information

The following information should be shared with your workers or volunteers to ensure they are aware of the voter registration laws and regulations, and to help them answer questions about voter registration. Each worker or volunteer must understand that if a person asks a question and the worker or volunteer is unsure of the answer, they should refer the person to the appropriate elections official. Workers and volunteers should have a copy of the "Voter Registration – Frequently Asked Questions."
